What the is going to be done about SCE&G getting these rate increases. Have you people not heard the outrage in our voices, or do you just not care. When are we going to get a choice on electric companies, because this company is robbing us blind. Stop their rate hikes. It's not our fault that they don't know how to budget for projects. Please go to WLTX's Facebook page and read the comments posted from the people of Columbia, South Carolina. You know, the people you say you represent. I'm sure this won't get any attention, I'm sure I'm just wasting my time. Maybe our rates will just go so high, we'll all just have to move away to another state. that will help S.C.'s revenue. I'm done!
